will be sent to you prior
to the event.

Many of us have experienced first-hand the impact of the current well-publicized labor shortage — either as business owners and managers struggling to hire employees or as consumers frustrated by poor service from a lack of staffing.

So far, government policy solutions have not been impactful. However, there are many important efforts underway.

Please join us for a panel discussion as we explore the root causes and potential solutions to the labor crisis.

HBS Club of NEO Members no charge — Other HBS Alums \$10 — Guests \$15
